Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

**NOTICE OF A PUBLIC COMMENT PERIOD ON
RENEWAL OF A SOLID AND HAZARDOUS WASTE FACILITY PERMIT
UNDER RESOURCE CONSERVATION AND RECOVERY ACT**

The New Jersey Department of Environmental Protection, Division of Solid and Hazardous Waste, hereby gives notice that it has tentatively approved a Solid and Hazardous Waste Facility Permit renewal application submitted by Veolia ES Technical Solutions, LLC for the continued operation of a solid and hazardous waste facility located in Middlesex Borough, Middlesex County. This permit covers ongoing solid and hazardous waste activities that are regulated by the Solid Waste Management Act (N.J.S.A. 13:1E-1 et seq.) on the State level and the Resource Conservation and Recovery Act (RCRA) on the Federal level.

Veolia ES Technical Solutions, L.L.C. (Veolia) operates as a commercial solid and hazardous waste facility by accepting for storage, treatment and transfer to authorized facilities, solid and hazardous waste generated by a variety of commercial and industrial generators (its clients). Activities at the facility include processing of spent organic solvents and other hazardous waste to reclaim solvent products, fuel blending, treatment of wastewater, and storage and transfer of hazardous and solid waste. The permit was last renewed on October 27, 2008. Waste storage activities include storage in containers (275,000 gallons), tank wagons (72,000 gallons), and rail cars (210,000 gallons) for a total of 557,000 gallons. Storage, processing and treatment of hazardous waste are conducted in sixty two (62) aboveground tanks with a total capacity of 1,027,200 gallons. As part of the permit renewal, Veolia will be authorized to replace an existing 4,000 gallon process tank with a new 8,000 gallon tank. This will increase the facility's total tank capacity to 1,031,200 gallons.

The public comment period on this tentative approval begins with the publication of this notice and will close forty-five (45) days thereafter. During this period, any interested person may submit written comments concerning the tentatively approved permit to:

Guy Watson, Chief
Bureau of Recycling & Hazardous Waste Management
Division of Solid and Hazardous Waste
New Jersey Department of Environmental Protection
401 East State Street, P.O. Box 420, Mail Code: 401-02C
Trenton, New Jersey 08625-0420
(609) 984-3438

The Department will respond to all relevant comments submitted during the public comment period. These comments and the Department's response will be set forth in a response document which shall become part of the administrative record upon which the Department shall base its final decision. Any person who has submitted relevant written comments will receive notification of the Department's final decision. Upon the written request of any interested party which, in the opinion of the Department, raises significant issues relevant to the proposed permit issuance during the public comment period, a public hearing will be scheduled regarding the proposed permit issuance.

Copies of the draft permit and supporting permit application are available for inspection at the office of the Department's Division of Solid and Hazardous Waste listed above. Anyone wishing to obtain a copy of a fact sheet on the facility, the draft permit, and/or further information, or to arrange to review the administrative record should first contact Mr. Guy Watson at the above listed address or telephone number.

Township of Mahwah, Bergen County**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION, DIVISION OF LAND USE REGULATION intends to issue a permit modification to a condition of the referenced permits, on behalf of the **DIVISION OF FISH AND WILDLIFE, ENDANGERED AND NONGAME SPECIES PROGRAM**. The proposed modification is to “Construction Work Plan, New Jersey Department of Environmental Protection Properties, Northeast Upgrade Project, Loop 325” finalized February 2013 (work plan) and which is referenced as permit Special Condition 21. The Department is proposing to amend item 3 within the section of the work plan entitled “Timber Rattlesnake Mitigation”. Currently, this section limits that a “monetary contribution to be used for land acquisition for public conservation ownership...to compensate for the loss of critical Timber Rattlesnake habitat features.” The proposed modification will provide the Department with needed flexibility to use such funds for projects that most effectively enhance conservation of the timber rattlesnakes in the vicinity of the pipeline. The modification will allow the monetary contribution to be used for activities; including habitat protection, habitat enhancement, habitat management and conservation-purposed research, designed to enhance conservation and recovery of timber rattlesnakes and/or northern copperheads in the Skylands region including northern Bergen, Passaic, Morris, northern Warren and Sussex Counties. Tennessee Gas will secure these funds in an interest-bearing escrow account to be used for activities described within NJ DEP’s *“Reptile and Amphibian Management Plan for the New Jersey Skylands Region with a focus on Timber Rattlesnakes (Crotalus horridus) and Northern Copperheads (Agkistrodon contortrix mokasen).”*

Comments regarding this permit condition modification should be sent to: David Jenkins, Endangered and Nongame Species, Division of Fish and Wildlife, Mail Code 501-03, PO Box 420, Trenton, NJ 08625-0420, or the office may be reached by telephone: (609) 292-2965. Comments must be received by NJDEP within 30 days of this publication.

Narrative	
	<p>This amendment is being submitted to supplement and further address the basis for the application for a Waiver of Department Rules under N.J.A.C. 7:1B, which was originally submitted on October 18, 2012 on behalf of Joseph Bello in support of the legalization and expansion of an existing fixed pier and boat lifts to moor personal vessels at the Property. The proposal is detailed on the plan submitted as part of this request and was prepared by Lindstrom, Diessner & Carr, PC, dated 9/11/12, revised as of 3/30/12(Plan). In furtherance of the application and as part of Mr. Bellos good faith efforts to narrow the scope of his application only to the features that are necessary, Mr. Bello would submit a revised plan, showing a reduction in dock construction. The Revised Plan would illustrate the proposed fixed pier and boat lifts as follows: (1) a 30 by 4 wide and a 20 by 6 extension to the existing fixed pier; (2) a 15.8 by 40 boat lift on the east side of the extension; (3) and a 15.8 by 40 boat lift on the west side. As noted, Mr. Bello proposes to eliminate a proposed 2 wide catwalk that was previously shown on the Plan to minimize impact to waters. All materials utilized will be inert or non-polluting materials and non-conforming dock structures will be removed. Background:Mr. Bello purchased the property in July 2008 and attempted to perform due diligence with regards to existing NJDEP Permits and was not fully disclosed at the time of purchase of the active enforcement actions by the prior owners. The neighborhood, including the properties adjacent to Mr. Bellos property contain, piers and boat lifts, and Mr. Bellos pier was consistent with the character of the neighborhood (although as noted below the pier at issue is shorter than adjacent piers). Thus, at the time that Mr. Bello purchased the Property, he had no reason to believe that the pier out-shore of the Property was not permitted. Once Mr. Bello was notified of the permittin</p>

Narrative	<p>There is a conflicting rule that imposes an undue burden on the applicant that restricts the applicant from utilizing the water resources during low water occurrences and prohibits the expansion as detailed above. The applicant is restricted from using his vessel during low tide events and cannot navigate to open water unless the tidal range is adequate. Therefore, the applicant is seeking waiver from the submerged vegetation habitat section for the construction of a single noncommercial dock (N.J.A.C. 7:7E-3.6(b)6). Specifically, 6.vi where dock construction within submerged vegetation habitat is prohibited unless a minimum water depth of four feet at mean low water exists where boats will be moored. The area of the extension and mooring has an average of 3.0 feet of water at mean low water as taken from the plan prepared by Lindstrom, Diessner and Carr, PC. Should the applicant attempt to comply with this regulation, the applicant would have to extend the pier to approximately 170-200 feet from the existing pier end and would extend within 20 feet of the navigation channel of the Manasquan River. Should a waiver from the Department rule be granted, the extension of the dock would not go beyond a common extension line between the adjoining docks to the east and west. The extension will provide better water depths during the tidal range and permit the applicant to utilize the mooring area without restricting activity during low tide occurrences. The extension proposed would create a safer condition to navigate to the dock and eliminate the applicants boat from running aground during low tide occurrences and reduce impact to submerged vegetation habitat unlike the current condition should the applicant attempt to moor during low tide. In conclusion, the above summary provides adequate information for the NJDEP to exercise the Waiver Rule Exemption Request in accordance with NJAC 7:1B.</p>

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.
